

UTL Supported Work Processes

Modularity

UTL is modular in design meaning you purchase only what you need, when you need it. As your needs grow, other modules can be added. Base modules consist of Shift Reports, Task Scheduler, Targeting, and Registers. Additional modules include the UTL Alarm Module, 3rd Party Integration Module, Subscription Module, Tag Locator Module, and the IntelTrac Module.

UTL Base Modules

Base Module: Shift Reports	Operations	Maintenance	Engineering	Management
Shift Plans	X			X
Shift Handovers	X			X
Unit Roll up to Supervisors	X			X
Sequential Reports	X	X		X
Log Items: Locations and Equipment	X	X	X	X
Shift Topic Searches and Subscriptions		X	X	
PTL Daily Summaries				X

Base Module: Task Scheduler	Operations	Maintenance	Engineering	Management
Assignment of Recurring Tasks to Users/Operations	X	X	X	X
Equipment Monitoring	X	X	X	X
Equipment Service Recording	X	X	X	X

Base Module: Targeting	Operations	Maintenance	Engineering	Management
Operator Instructions	X	X		X
Daily Orders	X	X		X
Planning Communication of Target Changes to Operations	X			X
Monitor Plant Targets	X	X	X	X
Monitor System or Unit Targets	X	X	X	X
IOW/DOW		X	X	X
Margin Drivers	X			X
Override Manager	X			X
Digital Alarms: Off Target	X	X	X	X
Target Mode Manager			X	
Process Historian Reconciliation Tools			X	
Tank Level / Flow Management	X	X	X	X

Base Module: Registers	Operations	Maintenance	Engineering	Management
Safety Mitigation Plans	X		X	X
MOCs	X		X	X
HAZOPS	X		X	X
LPF Bypass	X	X	X	X
Equipment Out of Service	X	X		

UTL Additional Modules

Alarm Module	Operations	Maintenance	Engineering	Management
SIF Trips			X	
Inhibit Alarm Lists			X	
Disable Alarm Lists		X	X	
Operations Response / Comments on Alarm	X	X	X	X
Alarm Reduction Metric Reporting	X	X	X	X
IPF information		X	X	
Alarm Reviews	X		X	X
Plant Alarm Goals				X

3rd Party Integration Module	Operations	Maintenance	Engineering	Management
SAP Work Orders	X	X	X	
Lab Results	X	X	X	X
Handheld Round Information	X	X		X
DOC 4000 / Trace			X	
ACM			X	

Subscription Module	Operations	Maintenance	Engineering	Management
Consistent Email Reports	X	X	X	X

Tag Locator Module	Operations	Maintenance	Engineering	Management
Central page to view all Tag Information	X	X	X	X

IntelaTrac Module	Operations	Maintenance	Engineering	Management
Rounds on Shift Reports	X	X		X
